

Atmosfæreforskningen i Oslomiljøet retter seg mot mange problemstillinger ikke bare klima, men for eksempel luftkvalitet, avsetning av forsurende komponenter, metoder for bedre værvarsler osv. I tabellen under har vi samlet et utvalg av publikasjoner fra Oslomiljøet (fra 2007 og senere) som er spesielt klimarelevante. I utgangspunktet har vi organisert publikasjonene etter prosjekt og hvilke hovedproblemstillinger i klimaforskningen de er rettet mot. P.g.a. kort tid i innspurten med dette dokumentet har vi ikke rukket å gjøre det for alle publikasjonene, slik at det følger en alfabetisk liste etter tabellen. Dette gjelder særlig for publikasjonene der NILU er involvert. Tabellen viser også nye prosjekter der det ennå ikke er kommet noen publikasjoner.

Aktivitetspunkt under ”Kritiske usikkerheter ..”	Prosjekt, Finansieringskilde Partnere fra Oslomiljøet	Publikasjoner
